

N (HCoV-229E) Recombinant Protein

Catalog # P6582 Size 100 ug

Specification

Product Description	HCoV-229E N (359 amino acids) partial recombinant protein with His tag expressed in <i>Escherichia coli</i> .
Host	Escherichia coli
Reactivity	Viruses
Form	Liquid
Preparation Method	<i>Escherichia coli</i> expression system
Purity	> 95%
Recommend Usage	ELISA IgG/IgM detection The optimal working dilution should be determined by the end user.
Storage Buffer	In 10 mM PBS, pH 7.2 (3M urea).
Storage Instruction	Store at 4°C for short term. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Enzyme-linked Immunoabsorbent Assay
- IgG/IgM detection
