

SARS-CoV-2

SARS-CoV-2 N Protein (Omicron B.1.1.529 Variant), Tag free, HEK293

Catalog # P7040 Size 100 ug

Applications

SDS-PAGE Stained with Coomassie Blue.

Specification

Product Description	SARS-CoV-2 N Variant B.1.1.529 (Omicron) recombinant protein expressed in HEK293 cells.
Variant	B.1.1.529 (Omicron)
Form	Lyophilized
Preparation Method	Mammalian cell (HEK293) expression system
Endotoxin Level	<1 EU/ug
Quality Control Testing	SDS-PAGE. SDS-PAGE Stained with Coomassie Blue.
Recommend Usage	SDS-PAGE The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS with 0.5M NaCl, pH7.4.
Storage Instruction	Lyophilized protein should be stored at -20°C. Upon reconstitution, protein aliquots should be stored at -20°C or -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- SDS-PAGE
