IGF1 (V44M) (Human) Recombinant Protein

Catalog # P8180 Size 100 ug

Specification

Product Description	Human IGF1 (P05019, 48 a.a. - 118 a.a.) V44M mutant partial recombinant protein expressed in *Escherichia coli*.
Sequence	GPETLCGAELVDALQFVCGDRGFYFNKPTGYGSSSRRAPQTGIMDECCFRSCDLRRLEMY
Host	Escherichia coli
Theoretical MW (kDa)	7.7
Form	Lyophilized
Preparation Method	*Escherichia coli* expression system
Purity	> 95% by SDS-PAGE
Recommend Usage	Biological Activity SDS-PAGE The optimal working dilution should be determined by the end user.
Storage Buffer	Lyophilized from sterile distilled Water is > 100 ug/mL
Storage Instruction	Store at 2°C to 8°C for 1 week. For long term storage, aliquot and store at -20°C to -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- SDS-PAGE

Gene Info — IGF1

Entrez GeneID	3479
Protein Accession#	P05019

Gene Name	IGF1
Gene Alias	IGFI
Gene Description	insulin-like growth factor 1 (somatomedin C)
Omim ID	147440 608747
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is similar to insulin in function and structure and is a member of a family of proteins involved in mediating growth and development. The encoded protein is proce ssed from a precursor, bound by a specific receptor, and secreted. Defects in this gene are a cau se of insulin-like growth factor I deficiency. Several transcript variants encoding different isoforms have been found for this gene
Other Designations	insulin-like growth factor 1|somatomedin C

Pathway

- Focal adhesion
- Glioma
- Hypertrophic cardiomyopathy (HCM)
- Long-term depression
- Melanoma
- mTOR signaling pathway
- p53 signaling pathway
- Pathways in cancer
- Prostate cancer

Disease

- Abortion
- Adenocarcinoma
- Adenoma
- Albuminuria
