

## PPP1CC polyclonal antibody

Catalog # PAB13653 Size 100 ug

1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form  Liquid  Recommend Usage  Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.  Storage Buffer  In PBS (0.08% sodium azide)  Storage Instruction  Store at -80°C. Aliquot to avoid repeated freezing and thawing.  Note  This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be determined by the end user.	Specification	
Sequence TPPRGMITKQAKK  Host Rabbit  Reactivity Bovine, Human, Mouse, Rabbit, Rat  Specificity This is a rabbit polyclonal antibody is specific to serine/threonine proten phosphatase 1gamma1 (P 1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form Liquid  Recommend Usage Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.  Storage Buffer In PBS (0.08% sodium azide)  Storage Instruction Store at -80°C. Aliquot to avoid repeated freezing and thawing.  Note This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should	Product Description	Rabbit polyclonal antibody raised against synthetic peptide of PPP1CC.
Reactivity Bovine, Human, Mouse, Rabbit, Rat  Specificity This is a rabbit polyclonal antibody is specific to serine/threonine proten phosphatase 1gamma1 (P 1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form Liquid  Recommend Usage Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.  Storage Buffer In PBS (0.08% sodium azide)  Storage Instruction Store at -80°C. Aliquot to avoid repeated freezing and thawing.  Note This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should a point and the product should be determined by the end user.	Immunogen	A synthetic peptide (conjugated with KLH) corresponding to rabbit PPP1CC.
Reactivity  Bovine, Human, Mouse, Rabbit, Rat  Specificity  This is a rabbit polyclonal antibody is specific to serine/threonine proten phosphatase 1gamma1 (P 1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form  Liquid  Recommend Usage  Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.  Storage Buffer  In PBS (0.08% sodium azide)  Storage Instruction  Store at -80°C. Aliquot to avoid repeated freezing and thawing.  Note  This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be determined by the end user.	Sequence	TPPRGMITKQAKK
Specificity  This is a rabbit polyclonal antibody is specific to serine/threonine proten phosphatase 1gamma1 (P 1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form  Liquid  Recommend Usage  Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.  Storage Buffer  In PBS (0.08% sodium azide)  Storage Instruction  Store at -80°C. Aliquot to avoid repeated freezing and thawing.  Note  This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be determined by the end user.	Host	Rabbit
1gamma1) corresponding to the C-terminus region. This antibody does not cross-react with other protein phosphatase isoforms. These antibodies are made against specific peptides to enhance reactivity and minimize cross reactivity.  Form  Liquid  Recommend Usage  Western Blot (5-10 ug/mL) The optimal working dilution should be determined by the end user.
