

# UBASH3A polyclonal antibody

Catalog # PAB27601      Size 100 ug

## Applications

### Western Blot (Tissue lysate)

UBASH3A polyclonal antibody (Cat # PAB27601) (1ug/ml) staining of human spleen lysate (35ug protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.

### Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

UBASH3A polyclonal antibody (Cat # PAB27601) (3.8ug/ml) staining of paraffin embedded human breast. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

## Specification

|                             |                                                                                               |
|-----------------------------|-----------------------------------------------------------------------------------------------|
| <b>Product Description</b>  | Goat polyclonal antibody raised against synthetic peptide of UBASH3A.                         |
| <b>Immunogen</b>            | A synthetic peptide corresponding to amino acids 470-482 at internal region of human UBASH3A. |
| <b>Sequence</b>             | DSGIRISSVFASP                                                                                 |
| <b>Host</b>                 | Goat                                                                                          |
| <b>Theoretical MW (kDa)</b> | 70                                                                                            |
| <b>Reactivity</b>           | Human                                                                                         |
| <b>Purification</b>         | Antigen affinity purification                                                                 |

|                     |                                                                                                                                                    |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Concentration       | 0.5 mg/mL                                                                                                                                          |
| Recommend Usage     | ELISA (1:8000)<br>Western Blot (1-3ug/ml)<br>Immunohistochemistry (3-5ug/ml)<br>The optimal working dilution should be determined by the end user. |
| Storage Buffer      | In Tris saline, pH 7.3 (0.02% sodium azide, 0.5% BSA)                                                                                              |
| Storage Instruction | Store at -20°C.<br>Aliquot to avoid repeated freezing and thawing.                                                                                 |
| Note                | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                             |

## Applications

- Western Blot (Tissue lysate)

UBASH3A polyclonal antibody (Cat # PAB27601) (1ug/ml) staining of human spleen lysate (35ug protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

UBASH3A polyclonal antibody (Cat # PAB27601) (3.8ug/ml) staining of paraffin embedded human breast. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.
