

APP fibrils polyclonal antibody (Biotin)

Catalog # PAB28921 Size 100 uL

Applications

Application Data with Unconjugated Antibody

Western Blot

□

Western blot analysis of Abeta42 fibrils (Lane 1, Lane 3) and prefibrillar oligomers (Lane 2, Lane 4) with APP fibrils polyclonal antibody (Cat # PAB28910; Lane 1, Lane 2) and APP oligomers polyclonal antibody (Cat # PAB28928; Lane 3, Lane 4).

Application Data with Unconjugated Antibody

Dot Blot

□

Dot blot analysis of Abeta42 and polyQ36 prefibrillar oligomers and fibrils with APP oligomers polyclonal antibody (Cat # PAB28928) and APP fibrils polyclonal antibody (Cat # PAB28910).

Specification

Product Description	Rabbit polyclonal antibody against amyloid fibrils and fibrillar oligomers.
Immunogen	Fibrils prepared from human Abeta42 peptide.
Host	Rabbit
Reactivity	Human, Mouse, Rat
Specificity	PAB28921 recognizes generic epitopes common to many amyloid fibrils and fibrillar oligomers, but not prefibrillar oligomers or natively folded proteins. 1:1000 dilution of PAB28921 was sufficient for detection of amyloid oligomers in 10ug of mouse brain lysates by colorimetric immunoblot analysis using Goat anti-rabbit IgG:HRP as the secondary antibody.
Form	Liquid

Conjugation	Biotin
Purification	Protein A affinity purification
Recommend Usage	Dot blot (1:1000) ELISA Immunocytochemistry Immunohistochemistry Immunoprecipitation Western Blot The optimal working dilution should be determined by the end user.
Storage Buffer	PBS pH7.4, 50% glycerol and 0.09% sodium azide
Storage Instruction	Store at 4°C. Aliquot to avoid repeated freezing and thawing.
Note	Application Data with Unconjugated Antibody Western Blot Western blot analysis of Abeta42 fibrils (Lane 1, Lane 3) and prefibrillar oligomers (Lane 2, Lane 4) with APP fibrils polyclonal antibody (Cat # PAB28910; Lane 1, Lane 2) and APP oligomers polyclonal antibody (Cat # PAB28928; Lane 3, Lane 4). Dot Blot Dot blot analysis of Abeta42 and polyQ36 prefibrillar oligomers and fibrils with APP oligomers polyclonal antibody (Cat # PAB28928) and APP fibrils polyclonal antibody (Cat # PAB28910).

Applications

- Western Blot
- Immunohistochemistry
- Immunocytochemistry
- Immunoprecipitation
- Enzyme-linked Immunoabsorbent Assay
- Dot Blot

Protein Accession#	P05067
Gene Name	APP
Gene Alias	AAA, ABETA, ABPP, AD1, APPI, CTFgamma, CVAP, PN2
Gene Description	amyloid beta (A4) precursor protein
Omim ID	104760 605714
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a cell surface receptor and transmembrane precursor protein that is cleaved by secretases to form a number of peptides. Some of these peptides are secreted and can bind to the acetyltransferase complex APBB1/TIP60 to promote transcriptional activation, while others form the protein basis of the amyloid plaques found in the brains of patients with Alzheimer disease. Mutations in this gene have been implicated in autosomal dominant Alzheimer disease and cerebral arteriole amyloidosis (cerebral amyloid angiopathy). Multiple transcript variants encoding several different isoforms have been found for this gene. [provided by RefSeq]
Other Designations	A4 amyloid protein amyloid beta A4 protein amyloid-beta protein beta-amyloid peptide cerebral vasculature amyloid peptide peptidase nexin-II protease nexin-II
