

AMFR polyclonal antibody

Catalog # PAB5236 Size 100 ug

Specification

Product Description	Rabbit polyclonal antibody raised against synthetic peptide of AMFR.
Immunogen	A synthetic peptide corresponding to N-terminus of human AMFR.
Host	Rabbit
Reactivity	Human, Mouse
Form	Liquid
Quality Control Testing	Antibody Reactive Against Synthetic Peptide.
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.2 (50% glycerol, 0.01% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Western Blot
- Enzyme-linked Immunoabsorbent Assay

Gene Info — AMFR

Entrez GeneID [267](#)

Gene Name AMFR

Gene Alias	GP78, RNF45
Gene Description	autocrine motility factor receptor
Omim ID	603243
Gene Ontology	Hyperlink
Gene Summary	Autocrine motility factor is a tumor motility-stimulating protein secreted by tumor cells. The protein encoded by this gene is a glycosylated transmembrane protein and a receptor for autocrine motility factor. The receptor, which shows some sequence similarity to tumor protein p53, is localized to the leading and trailing edges of carcinoma cells. [provided by RefSeq]
