RecomAb™ HuAb

ITGA2B humanized monoclonal antibody, clone 7E3 (Abciximab)

Catalog # RAB01145 Size 200 ug

Applications

Flow Cytometry

Flow-cytometry were stained with an isotype control at a concentration of 1 ug/mL for 30 mins at RT. After washing, bound antibody was detected using a AF488 conjugated donkey anti-rabbit antibody and cells analysed on a FACSCanto flow-cytometer.

Specification

Product Description	Humanized recombinant monoclonal antibody raised against human CD41.
Antibody Species	Human
Immunogen	Original antibody is raised against CD41 is the integrin alpha chain 2b forming a fibrinogen receptor in heterodimeric complex with beta 3.
Reactivity	Human
Specificity	Recognises human CD41.
Form	Liquid
Preparation Method	Mammalian cell (HEK293) expression system
Purification	Protein A affinity purification
Isotype	IgG1, Kappa

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Recommend Usage	Flow cytometry The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS with 0.02% Proclin 300
Storage Instruction	Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Applications

- Flow Cytometry

  Flow-cytometry were stained with an isotype control at a concentration of 1 ug/mL for 30 mins at RT. After washing, bound antibody was detected using a AF488 conjugated donkey anti-rabbit antibody and cells analysed on a FACSCanto flow-cytometer.

Gene Info — ITGA2B

Entrez GeneID	3674
Protein Accession#	P08514
Gene Name	ITGA2B
Gene Alias	CD41, CD41B, GP2B, GPIIb, GTA, HPA3
Gene Description	integrin, alpha 2b (platelet glycoprotein IIb of IIb/IIIa complex, antigen CD41)
Omim ID	273800 607759
Gene Ontology	Hyperlink
Gene Summary	ITGA2B encodes integrin alpha chain 2b. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain. Alpha chain 2b undergoes post-translational cleav age to yield disulfide-linked light and heavy chains that join with beta 3 to form a fibronectin recept or expressed in platelets that plays a crucial role in coagulation. Mutations that interfere with this r ole result in thrombasthenia. In addition to adhesion, integrins are known to participate in cell-surf ace mediated signalling. [provided by RefSeq
Other Designations	integrin alpha 2b|platelet fibrinogen receptor, alpha subunit|platelet-specific antigen BAK

Pathway

- Arrhythmogenic right ventricular cardiomyopathy (ARVC)
- ECM-receptor interaction
