RecomAb™

STAT1 recombinant monoclonal antibody, clone R07-7A3

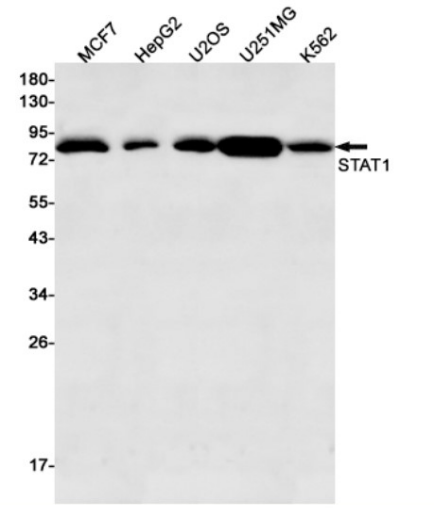

Catalog # RAB01892 Size 100 uL

Applications

Immunocytochemistry

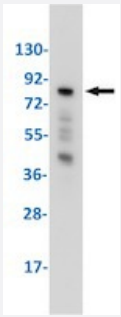

Immunocytochemistry staining of Hela cells with STAT1 recombinant monoclonal antibody, clone R07-7A3 (Cat # RAB01892).

Western Blot

Western Blot analysis of MCF-7, HepG2, U2OS, U251MG, K562 lysates with STAT1 recombinant monoclonal antibody, clone R07-7A3 (Cat # RAB01892).

Western Blot

Western blot analysis of MCF-7 lysates with STAT1 recombinant monoclonal antibody, clone R07-7A3 (Cat # RAB01892).

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against human STAT1.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against a synthetic peptide corresponding to human STAT1.
Theoretical MW (kDa)	Calculated MW: 87 kD
Reactivity	Human
Form	Liquid
Preparation Method	Mammalian cell (CHO) expression system
Purification	Affinity purification
Isotype	IgG
Recommend Usage	Immunofluorescence (1:50-1:200) Immunoprecipitation (1:20) Western Blot (1:500-1:1000) The optimal working dilution should be determined by the end user.
Storage Buffer	In 50 mM Tris-Glycine pH 7.4 (0.15 M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% BSA).
Storage Instruction	Store at -20 °C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Gene Info — STAT1

Entrez GeneID	6772
Protein Accession#	P42224
Gene Name	STAT1
Gene Alias	DKFZp686B04100, ISGF-3, STAT91
Gene Description	signal transducer and activator of transcription 1, 91kDa
Omim ID	209950 600555
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is a member of the STAT protein family. In response to cytokine s and growth factors, STAT family members are phosphorylated by the receptor associated kinas es, and then form homo- or heterodimers that translocate to the cell nucleus where they act as tran scription activators. This protein can be activated by various ligands including interferon-alpha, int erferon-gamma, EGF, PDGF and IL6. This protein mediates the expression of a variety of genes, which is thought to be important for cell viability in response to different cell stimuli and pathogens. Two alternatively spliced transcript variants encoding distinct isoforms have been described. [pro vided by RefSeq
Other Designations	OTTHUMP00000165047|signal transducer and activator of transcription 1|signal transducer and activator of transcription-1|transcription factor ISGF-3 components p91/p84
