

RecomAb™

# STAT3 (Phospho S727) recombinant monoclonal antibody

Catalog # RAB02541      Size 100 uL

## Applications

### Western Blot (Cell lysate)

Western blot analysis of Jurkat (A), C6 (B), HeLa (C) whole cell lysates with STAT3 (Phospho S727) recombinant monoclonal antibody (Cat # RAB02541).

## Specification

|                             |                                                                                                                             |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>  | Rabbit recombinant monoclonal antibody raised against human STAT3.                                                          |
| <b>Antibody Species</b>     | Rabbit                                                                                                                      |
| <b>Immunogen</b>            | Original antibody is raised against a synthetic phosphopeptide corresponding to residues surrounding Ser727 of human STAT3. |
| <b>Theoretical MW (kDa)</b> | 86                                                                                                                          |
| <b>Reactivity</b>           | Human, Rat                                                                                                                  |
| <b>Specificity</b>          | Recognizes endogenous levels of STAT3 (pS727) protein.                                                                      |
| <b>Form</b>                 | Liquid                                                                                                                      |
| <b>Purification</b>         | Immunogen affinity chromatography                                                                                           |
| <b>Isotype</b>              | IgG                                                                                                                         |
| <b>Recommend Usage</b>      | Immunocytochemistry (1:50-1:100)<br>Immunofluorescence (1:50-1:100)<br>Western Blot (1:500-1:1000)                          |

|                     |                                                                                                                        |
|---------------------|------------------------------------------------------------------------------------------------------------------------|
| Storage Buffer      | In 50mM Tris-Glycine, pH 7.4 (0.15M NaCl, 50% Glycerol, 0.01% Sodium azide and 0.05% BSA)                              |
| Storage Instruction | Store at 4°C short term.<br>Aliquot and store at -20°C long term.<br>Avoid freeze-thaw cycles.                         |
| Note                | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |

## Applications

- Western Blot (Cell lysate)

Western blot analysis of Jurkat (A), C6 (B), Hela (C) whole cell lysates with STAT3 (Phospho S727) recombinant monoclonal antibody (Cat # RAB02541).

- Immunocytochemistry

- Immunofluorescence

| Gene Summary       | <p>The protein encoded by this gene is a member of the STAT protein family. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that translocate to the cell nucleus where they act as transcription activators. This protein is activated through phosphorylation in response to various cytokines and growth factors including IFNs, EGF, IL5, IL6, HGF, LIF and BMP2. This protein mediates the expression of a variety of genes in response to cell stimuli, and thus plays a key role in many cellular processes such as cell growth and apoptosis. The small GTPase Rac1 has been shown to bind and regulate the activity of this protein. PIAS3 protein is a specific inhibitor of this protein. Three alternatively spliced transcript variants encoding distinct isoforms have been described. [provided by RefSeq]</p> |
