

FISH Hybridization Buffer (5 mL)

Catalog # U0029 Size 5 x 1 mL

Specification

Product Description	FISH Hybridization Buffer is optimized for performance with FISH probes and contains dextran sulfate, formamide, and SSC (pH 7.0).
Regulatory Status	Please check the restriction regulation of formamide in your country. Make sure that importing products which contain formamide is approved by your local administration.
Storage Instruction	Store at 4°C

Applications

- Fluorescent In Situ Hybridization (Cell)
