VHH LNP Conjugation Kit

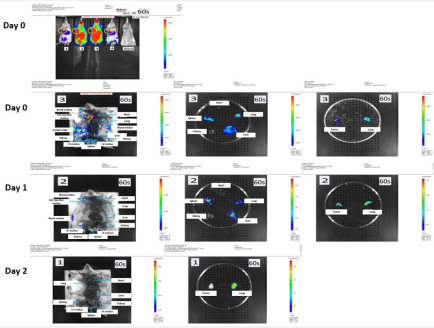

Catalog # KA7668 Size 1 Kit

Applications

nanoTargeting LNP

IVIS imaging in the CT26-mCDH17 subcutaneous mouse tumor model showed FLuc bioluminescence signals at the tumor site after treatment with FLuc mRNA LNPs conjugated with mouse CDH17 VHH antibody using the VHH LNP Conjugation Kit (Cat # KA7668).

nanoTargeting LNP

IVIS imaging in the 4T1 lung metastatic mouse tumor model showed FLuc bioluminescence signals at both tumor and lung sites after treatment with FLuc mRNA LNPs conjugated with mouse FOLR1 VHH antibody using the VHH LNP Conjugation Kit (Cat # KA7668).

Specification

Product Description	VHH LNP Conjugation Kit enables efficient, stable, and reproducible conjugation of VHHs to LNPs fo r targeted *in vitro* and *in vivo* delivery.
Supplied Products	Kit content: 1. Linker A 2. Linker B 3. Solution D 4. Buffer H
Pack Size	50ug VHH LNP/rxn X 5 rex
Regulatory Status	For research use only (RUO)
Storage Instruction	Store Linker A and Linker B at -20°C. Store Solution D and Buffer H at 4°C. Aliquot to avoid repeated freezing and thawing. Protect from light.
Note	Product Image Product Image
