RecomAb™ Sm Size

PTK2 recombinant monoclonal antibody

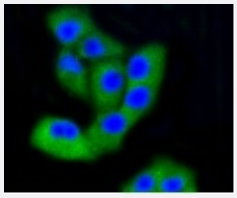

Catalog # RAB09358 Size 50 uL

Applications

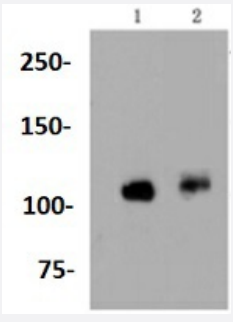

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical analysis of paraffin-embedded human liver cancer tissue using PTK2 recombinant monoclonal antibody (Cat # RAB09358). Counter stained with hematoxylin.

Immunocytochemistry

Immunocytochemical staining of PANC-1 cells using PTK2 recombinant monoclonal antibody (Cat # RAB09358)(green). The nuclear counter stain is DAPI (blue). Cells were fixed in paraformaldehyde, permeabilised with 0.25% Triton *100/PBS.

Western Blot

Western blot analysis of Lane1:Hela whole cell lysate Lane2:The spleen tissue lysate of Mouse with PTK2 recombinant monoclonal antibody (Cat # RAB09358) at 1:1000 dilution.

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against PTK2.

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Antibody Species	Rabbit
Immunogen	Original antibody is raised against recombinant PTK2.
Theoretical MW (kDa)	125
Reactivity	Human, Mouse, Rat
Specificity	This antibody detects endogenous levels of FAK and does not cross-react with related proteins.
Form	Liquid
Preparation Method	Mammalian cell (HEK293) expression system
Purification	Protein A purification
Isotype	IgG
Recommend Usage	Flow Cytometry (1:50-1:100) Immunocytochemistry (1:50-1:200) Immunofluorescence (1:50-1:200) Immunohistochemistry (1:50-1:200) Western Blot (1:1000-1:2000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH7.2 (50% glycerol and 0.02% sodium azide)
Storage Instruction	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical analysis of paraffin-embedded human liver cancer tissue using PTK2 recombinant monoclonal antibody (Cat # RAB09358). Counter stained with hematoxylin.

- Immunocytochemistry

  Immunocytochemical staining of PANC-1 cells using PTK2 recombinant monoclonal antibody (Cat # RAB09358)(green). The nuclear counter stain is DAPI (blue). Cells were fixed in paraformaldehyde, permeabilised with 0.25% Triton *100/PBS.

Copyright © 2023 Abnova Corporation. All Rights Reserved.

- Western Blot

  Western blot analysis of Lane1:Hela whole cell lysate Lane2:The spleen tissue lysate of Mouse with PTK2 recombinant monoclonal antibody (Cat # RAB09358) at 1:1000 dilution.

Gene Info — PTK2

Entrez GeneID	5747
Protein Accession#	Q05397
Gene Name	PTK2
Gene Alias	FADK, FAK, FAK1, pp125FAK
Gene Description	PTK2 protein tyrosine kinase 2
Omim ID	600758
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a cytoplasmic protein tyrosine kinase which is found concentrated in the focal adhesions that form between cells growing in the presence of extracellular matrix constituents. Th e encoded protein is a member of the FAK subfamily of protein tyrosine kinases but lacks signific ant sequence similarity to kinases from other subfamilies. Activation of this gene may be an impor tant early step in cell growth and intracellular signal transduction pathways triggered in response t o certain neural peptides or to cell interactions with the extracellular matrix. At least four transcript variants encoding four different isoforms have been found for this gene, but the full-length natures of only two of them have been determined. [provided by RefSeq
Other Designations	focal adhesion kinase 1
