IFNG monoclonal antibody, clone G-23

Catalog # MAB0980 Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against partial recombinant IFNG.
Immunogen	Recombinant protein corresponding to amino acids 22-166 of human IFNG.
Host	Mouse
Reactivity	Human
Specificity	This antibody reacts with IFN-gamma, a 16-25 kDa cytokine produced by activated Th1 cells and NK cells.
Form	Liquid
Purification	Protein-A affinity chromatography
Isotype	IgG1
Recommend Usage	Flow Cytometry (Intracellular staining; recommended dilution: 2-4 ug/mL; positive control: PMA/ionomycin stimulated peripheral blood lymphocytes (PBL).) Western Blot (Recommended dilution: 1 ug/mL; positive control: recombinant human IFN-gamma.) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (15 mM sodium azide).
Storage Instruction	Store at 4°C. Do not freeze. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Flow Cytometry
- Western Blot

Gene Info — IFNG

Entrez GeneID	3458
Protein Accession#	P01579
Gene Name	IFNG
Gene Alias	IFG, IFI
Gene Description	interferon, gamma
Omim ID	147570 191100 607948 609135 609423
Gene Ontology	Hyperlink
Gene Summary	Interferon-gamma (IFNG), or type II interferon, is a cytokine critical for innate and adaptive immunity against viral and intracellular bacterial infections and for tumor control. Aberrant IFNG expression is associated with a number of autoinflammatory and autoimmune diseases. The importance of IFNG in the immune system stems in part from its ability to inhibit viral replication directly, but most importantly derives from its immunostimulatory and immunomodulatory effects. IFNG is produced predominantly by natural killer (NK) and natural killer T (NKT) cells as part of the innate immune response, and by CD4 (MIM 186940) and CD8 (see MIM 186910) cytotoxic T lymphocyte (CTL) effector T cells once antigen-specific immunity develops (Schoenborn and Wilson, 2007 [PubMed 17981204]).[supplied by OMIM
