RecomAb™

TYRP1 recombinant monoclonal antibody, clone TYRP1/2340R

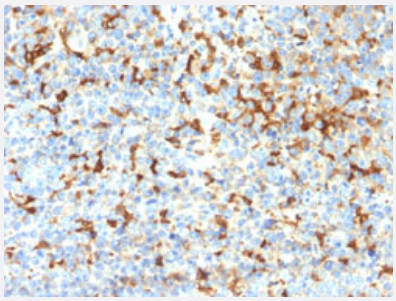

Catalog # RAB00650 Size 100 ug

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining of human basal cell carcinoma.

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining of human melanoma.

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against partial human TYRP1.
Antibody Species	Rabbit
Immunogen	Recombinant protein corresponding to amino acids 257-377 of human TYRP1.
Reactivity	Human
Form	Liquid
Purification	Protein A/G purification

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Isotype	IgG
Recommend Usage	ELISA (2-4 ug/mL for coating) Western Blot (1-2 ug/mL) The optimal working dilution should be determined by the end user.
Storage Buffer	In 1 mg/mL PBS
Storage Instruction	Store at -20 to -80°C.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical staining of human basal cell carcinoma.

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical staining of human melanoma.

- Enzyme-linked Immunoabsorbent Assay

Gene Info — TYRP1

Entrez GeneID	7306
Protein Accession#	P17643
Gene Name	TYRP1
Gene Alias	CAS2, CATB, GP75, TRP, TYRP, b-PROTEIN
Gene Description	tyrosinase-related protein 1
Omim ID	115501 203290 278400
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a melanosomal enzyme that belongs to the tyrosinase family and plays an imp ortant role in the melanin biosynthetic pathway. Defects in this gene are the cause of rufous oculoc utaneous albinism and oculocutaneous albinism type III. [provided by RefSeq
Other Designations	associated with iris pigmentation
