Datasheet

TYMP recombinant monoclonal antibody, clone TYMP/2890R

Catalog Number: RAB00543

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against full length human TYMP.

Clone Name: TYMP/2890R

Immunogen: Recombinant protein corresponding to full-length human TYMP.

Antibody Species: Rabbit

Reactivity: Human,Mouse,Rat

Applications: IHC-P
(See our web site product page for detailed applications information)

Protocols: See our web site at http://www.abnova.com/support/protocols.asp or product page for detailed protocols

Form: Liquid

Purification: Protein A/G purification

Isotype: IgG

Recommend Usage: Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1-2 ug/mL)
The optimal working dilution should be determined by the end user.

Storage Buffer: In 1 mg/mL PBS

Storage Instruction: Store at -20 to -80°C.

Entrez GeneID: 1890

Gene Symbol: TYMP

Gene Alias: ECGF1, MNGIE, PDECGF, TP, hPD-ECGF

Gene Summary: This gene encodes an angiogenic factor which promotes angiogenesis in vivo and stimulates the in vitro growth of a variety of endothelial cells. It has a highly restricted target cell specificity acting only on endothelial cells. Mutations in this gene have been associated with mitochondrial neurogastrointestinal encephalomyopathy. Multiple alternatively spliced variants, encoding the same protein, have been identified. [provided by RefSeq]
