

Mycoplasma pneumoniae Native Protein

Catalog # P6668

Size

Specification

Product Description	<i>Mycoplasma pneumoniae</i> native protein from <i>Mycoplasma pneumoniae</i> culture strain FH.
Host	Bacteria
Reactivity	Bacteria
Form	Liquid
Preparation Method	<i>Mycoplasma pneumoniae</i> culture strain FH
Purification	Extract from in vitro culture partially purified material via centrifugation.
Recommend Usage	IgG/IgM detection The optimal working dilution should be determined by the end user.
Storage Buffer	In 10 mM PBS.
Storage Instruction	Store at -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- IgG/IgM detection
