

# HA tag polyclonal antibody

Catalog # PAB17064

Size 1 mg

## Specification

|                            |                                                                                                                                                                     |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b> | Rabbit polyclonal antibody raised against synthetic peptides of HA (Hemagglutinin) tag.                                                                             |
| <b>Immunogen</b>           | A synthetic peptide (conjugated with KLH) corresponding to HA Tag.                                                                                                  |
| <b>Sequence</b>            | YPYDVPDYA                                                                                                                                                           |
| <b>Host</b>                | Rabbit                                                                                                                                                              |
| <b>Form</b>                | Liquid                                                                                                                                                              |
| <b>Recommend Usage</b>     | ELISA (2-10 ug/mL)<br>Immunohistochemistry (0.5-5 ug/mL)<br>Immunocytochemistry (0.5-5 ug/mL)<br>The optimal working dilution should be determined by the end user. |
| <b>Storage Buffer</b>      | In PBS                                                                                                                                                              |
| <b>Storage Instruction</b> | Store at 4°C.                                                                                                                                                       |

## Applications

- Western Blot
- Immunohistochemistry
- Immunocytochemistry
- Enzyme-linked Immunoabsorbent Assay
