

# AXL polyclonal antibody

Catalog # PAB31203      Size 100 uL

## Applications

### Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human testis with AXL polyclonal antibody (Cat # PAB31203) shows strong cytoplasmic positivity in cells in seminiferous ducts.

## Specification

Product Description	Rabbit polyclonal antibody raised against partial recombinant human AXL.
Immunogen	Recombinant protein corresponding to human AXL.
Sequence	PYHIRVACTSSQGPPSWTHWLPVETPEGVPLGPPENISATRNGSQAFVHWQEPRAPLQGTLLGYRLAYQGQDTPEVLMDIGLRQEVTLLELQ
Host	Rabbit
Reactivity	Human
Form	Liquid
Purification	Antigen affinity purification
Isotype	IgG
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:50-1:200) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.2 (40% glycerol, 0.02% sodium azide).

**Storage Instruction**

Store at 4°C for short term storage. For long term storage store at -20°C.  
Aliquot to avoid repeated freezing and thawing.

**Note**

This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

## Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human testis with AXL polyclonal antibody (Cat # PAB31203) shows strong cytoplasmic positivity in cells in seminiferous ducts.

## Gene Info — AXL

**Entrez GeneID**[558](#)**Protein Accession#**[P30530](#)**Gene Name**

AXL

**Gene Alias**

JTK11, UFO

**Gene Description**

AXL receptor tyrosine kinase

**Omim ID**[109135](#)**Gene Ontology**[Hyperlink](#)**Gene Summary**

The protein encoded by this gene is a member of the receptor tyrosine kinase subfamily. Although it is similar to other receptor tyrosine kinases, this protein represents a unique structure of the extracellular region that juxtaposes IgL and FNIII repeats. It transduces signals from the extracellular matrix into the cytoplasm by binding growth factors like vitamin K-dependent protein growth-arrest-specific gene 6. It is involved in the stimulation of cell proliferation and can also mediate cell aggregation by homophilic binding. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq]

**Other Designations**

AXL transforming sequence/gene|oncogene AXL
