

CSV magnetic beads

Catalog # U0380

Size 200 uL

Specification

Product Description	CSV (cell-surface vimentin) monoclonal antibody conjugated magnetic beads for cell separation and purification.
Particle Core	Iron oxide (Fe ₃ O ₄)
Particle Coating	Hydrophilic layer of glycidyl ether
Surface Modification	CSV monoclonal antibody
Particle Size	1 um in diameter
Storage Buffer	In PBS, pH 7.4 (0.1% BSA, 0.1% Tween 20, and 0.09% sodium azide)
Storage Instruction	Stored at 2-8°C.

Applications

- Purification
